

Communications Report 2009-2010

This has been a quiet year. Our main objective has been to spend money wisely.

This year has seen a rise in advertising in the Bulletin which has been encouraging. This has allowed the offsetting of increased page numbers to be produced at no extra cost. Feedback from advertisers has been positive.

It is proposed to move the Parish council notice board from the corner of the High Street and Dovers Park to a more central point next to the post box on Dovers Lane. It is proposed to refurbish the notice board at the same time. It is hoped that a new volunteer may be able to come forward to help with the refurbishment as the original volunteer is not able to undertake the work at present due to unexpected illness. We only really need help with the rubbing down and resealing of the notice board. If no new volunteer is forthcoming we will get quotes to carry out the work and then make a decision on the feasibility, or move the board without refurbishing it.
